INTERNET/COMPUTER USE PERMISSION FORM

Client: _____ **DOB:** _____

At TSA, there may be opportunities to access computers and/or internet use while in placement (at the foster home, library, et cetera). Please review the options below in regards to the specified child on this form and indicate which option best meets the needs for the child with regard to their exposure to the computer and/or internet. Please note that some of TSA's foster families have computers, some have computers with internet, and other families do not have computers at all.

TSA expects that computer and internet use is accessed in a responsible and safe manner by all clients in the Adolescent Treatment Program. "Responsible and safe" is defined as 1) not disclosing personal or identifying information on the world wide web, 2) viewing websites that are age appropriate, 3) respecting the expectations/limitation of use as outlined below, 4) respecting the rules of each individual foster home for computer/internet use.

Please initial and checkmark the option chosen.

- Is able to use computer and internet
- Is able to access MySpace/Facebook
- Is able to use computer only for school purposes with adult supervision (word processing, some internet use for educational purposes)
- Is able to use ONLY computer for word processing NOT internet
- Is NOT able to use computer or internet options
